

UNIQUE® CONCRETE POURABLE CRACK FILLER

SEALS OUT WATER, PROTECTS AND PRESERVES CONCRETE PAVEMENTS

Product Description

UNIQUE® pourable concrete crack filler is an asphalt emulsion concrete crack filler designed for filling cracks and joints in concrete pavements.

UNIQUE pourable concrete crack filler formulated with special polymers and additives, seals out water and provides adhesion and elastomeric properties while protecting and preserving concrete pavements.

Benefits / Features

- Signature grade asphalt emulsion based formula
- Free of coal tar
- Can be applied to damp pavement
- Cost-effective
- Minimum preparation required
- Safe and easy to apply
- Excellent adhesion to pavement surfaces
- Excellent cold weather flexibility
- Reduced traffic delays
- Environmentally friendly

Storage

Six month shelf life when stored in unopened containers and kept from freezing.

UNIQUE® pourable concrete crack filler is a product of UNIQUE Paving Materials Corp.

UNIQUE® is a registered trademark of UNIQUE Paving Materials Corp.

Recommended Uses

Use UNIQUE® concrete crack filler to fill cracks and joints on any concrete surface, including driveways and parking lots. **UNIQUE** concrete crack filler should be applied to cracks from hairline to 1" wide. Use other UNIQUE® Pavement Preservation and repair products for larger crack and joint repairs.

UNIQUE concrete crack filler should be applied when the ambient temperature is expected to be at or above 50°F and rain is not expected within 24 hours following application.

Coverage

One gallon of UNIQUE® pourable concrete crack filler will cover approximately:

Width x Depth	Linear Feet	Linear Meters
1/4" (6MM) x 1/4" (6MM)	300	92
1/2" (13MM) x 1/2" (13MM)	75	23
1" (25MM) x 1" (25MM)	25	8

Available in quart and gallon bottles, pails, and drums.
