

# UNIQUE® OVERHEAD VERTICAL REPAIR MORTAR

COMMERCIAL-GRADE CONCRETE PATCHING MATERIAL

## JUST ADD WATER

Single Component - no bonding agents required

### Product Description

UNIQUE® Overhead & Vertical Repair Mortar (OHVR) is a volume stable special blend of Pozzolanic Cement, proprietary ingredients and blended polymers.

### Benefits / Features

- Excellent bond strength
- Excellent adhesion to concrete surfaces
- Self-curing
- Interior or exterior use
- Freeze-thaw resistant
- Sulfate resistant
- Can be placed from featheredge to a 4" maximum thickness
- User friendly
- Easy clean up with water

### Recommended Uses

Use for vertical and overhead non-structural repairs to concrete, mortar, brick, stone and mortarless stack and bond block applications.

### Coverage

10 pounds of **UNIQUE** Overhead & Vertical Repair Mortar mortar yields approximately 0.11 cubic foot of finished product when mixed with 40 ounces of potable water.

### Shelf Life

Two years if stored in an unopened pail according to ACI Guidelines.
